

OUTSTANDING

“[...] Compact speaker with a stylish appearance and excellent acoustic characteristics [...].”

“[...] We hardly expected the Humidor to deliver us the first seconds of „Sultans of Swing“ with such a high level of volume and abundance. Full of verve, the sound excellently frees itself from the compact bookshelf speakers, leading to a wide stage with good positioning of the instruments [...].”

“[...] The bass is well-structured and boasts with precise resolution. As promised: a well-balanced performance resulting in an authentic overall entity, yet coming with great liveliness and big emotions [...].”

Conclusion:

“Just because of their characteristic look the Magnat Humidor are perfectly suited to complete your home retreat, where you like to enjoy a good cigar or an exclusive alcoholic drink. However the compact speakers go far beyond just looking good. Despite their size they deliver a surprisingly generous and very spatial stage with good resolution and an excellent balance. They bring a high level stability and never sound unpleasant, on the contrary they always remain sovereign, even in bigger rooms... Subsequent to the Quantum Edelstein Magnat succeeded in creating another compact speaker that does not appeal to everyone with its particular design, but is always convincing in terms of acoustics, even outside its niche.”
