

CD-RECEIVER MAGNAT MC 100 – A NEW CHAPTER IN HIFI HISTORY

„[...] The MC 100 looks perfect, but has much more to offer than just a pretty face.“

„[...] Quality prevails right down to the least detail.“

„[...] The perfect-to-dance-to song is booming neatly and clearly from the speakers, topped by a pleasingly powerful bass support (you usually wouldn't expect from such a compact setup) and helps you to relax after a long day's work.“

Overall rating: 1,0

Price/Performance: very good

Fazit:

„The multi-receiver MC 100 by Magnat links up traditional and modern hifi on a very high level. Thanks to Hi-Res support and aptXTM / Bluetooth® functionality the compact precision-provider always delivers outstanding sound and, on top of its appealing inner values, comes up with an extremely attractive outer appearance. Although with its price of 650 euros, it is a little bit more expensive than traditional hifi systems, it offers more and above all modern features.“
