Price/Performance: excellent

Bluetooth® Qualcomm® aptX™

“... The 220 delivers a lot of fun and is perfectly fit for both TV sets or play stations and turntables. Actually we haven’t had an active speaker here that was that perfectly suited for all current boom applications. Special congrats to Magnat!”

Comment from the laboratory:

“Excellent test results for an active speaker of this class”

To sum up:

“With its analogue/digital connectivity, the Magnat Multi Monitor 220 offers a great variety of possible applications and is perfectly prepared for present-day hifi environments. Good sound for little money and an easy-to-use equalizer on top – a feature that many other components really should have, too.”
