PRICE-PERFORMANCE: OUTSTANDING

CONCLUSION:

“... It is a three-way system with a high-end 24dB crossover, ample „active“ cone surface and an impressive “twin exhaust” on the back of the solid 25 mm cabinet”

“In STEREO’s listening room the latest Magnat speaker presented itself once again particularly lively and passionately. It demonstrates at the same time enormous presence, frankness and richness of detail in the treble range, and a lot of “bang” in the bass range...”

“... In terms of dynamics and level stability it is among those that lead the field, absolutely impressing.”

“... As the Magnat is among the bigger loudspeakers [from the testfield], at a price of only € 1,260 it offers very good value for money. The magnetic cover is included in delivery, the finish just amazing - yes, the Magnat is a real bargain.”
