„[...] The Magnat RV4 is a rather warm-sounding, unexcitedly playing companion, which however – unlike many other similar amps – gladly offers a great deal of control and emphasis in the bass range.”

“[...] Its phonetic orientation has a lot to offer: Its great versatility will make you feel like listening to music for many hours – provided your living room is modern and poorly cushioned.”

Summing up:

“Even after its performance having been slightly reduced, Magnat’s new hybrid amplifier still boasts a lot of power and actually sounds more substantial and full-bodied than its predecessor.”

[...] The Magnat RV4 convinced us as a whole: the particular look, the sophisticated workmanship, the full range of features with an outstanding phono stage and a phenomenal Bluetooth access.”

Result: **VERY GOOD (4.1)**
