

BUDGET SPEAKERS WITH HI-RES CERTIFICATION

"[...] To come to the point: Magnat's speakers are not stingy when it comes to fine resolution. The dual tweeter, which includes the super tweeter, does a superb job. For € 500 per pair, the Magnat speakers offer a lot of detail."

"[...] Rock and pop music is extremely appealing thanks to the quick response of the speakers. This is particularly noticeable during percussion segments, powerful rhythms, delicate piano chords and present but clear vocals, and causes you to sway along without even realizing it. The Magnat Signature 503 is fun to listen to."

"[...] Individual instruments are clearly defined in a stereo panorama. They do not portray the deepest and broadest sound stage, however. It's the details that I find really captivating here. The speakers reproduce music in an exemplary manner."

Conclusion:

"Magnat has managed to create a surprisingly mature budget speaker with its Signature 503. The super tweeter is particularly pleasing with its fast response and exceptionally detailed resolution. The speakers thoroughly deserve the Hi-Res seal."

Design/workmanship:	8/10 points
Configuration/features:	9/10 points
