

Test result: **Top class**

THERE'S NO WAY AROUND THESE THREE-WAY SPEAKERS

“[...] The compact speakers produce a performance of the highest level from the outset. Our listening test starts with Brian Fallon’s new single “You Have Stolen My Heart”, which is characterized by a customary unpolished and honest sound. The fact that the Signature 903 units do not artificially embellish things is demonstrated here. They do not distort anything, which is exactly how honest music should sound. Thanks to their tweeter module, Magnat’s speakers do not omit any details and produce an excellent resolution. The vocal reproduction also leaves nothing to be desired and sounds wonderfully vivid.”

“[...] The level of sound fidelity is excellent and the playback immediately sweeps the listener along.”

Price/Performance: outstanding

Conclusion:

“The high quality of Magnat’s speakers shouldn’t really be a surprise to anyone anymore. However, the chic Signature 903 simply exceeds our expectations. The elegant lacquered macassar ebony surface illustrates that we are dealing with real high-end speakers here – even though they are still in an affordable price range at €999 per pair. In view of the excellent sound of the compact speakers, this is hard to believe. For anyone with a corresponding budget who wants to stylishly fill a small or medium-sized room with an exquisite sound, they should look no further than the Signature 903.”
