

## MAGNAT SIGNATURE 903 – DYNAMIC HIGH 3

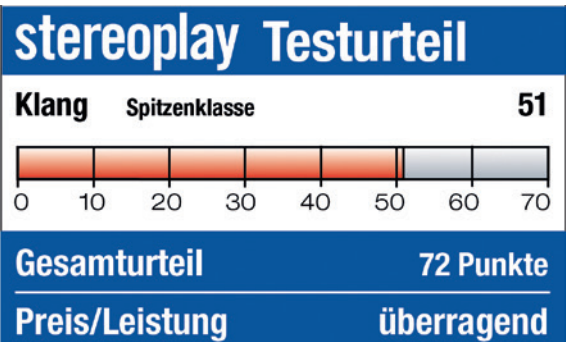

„[...] Magnat’s new Signature series does a lot of things differently to others. And it does a lot of things well! Such a high degree of dynamics, resolution and sheer scale of the sound are very rare from a compact speaker.“

„[...] Magnat’s speaker is particularly appealing to fans of dynamics and rich beats from the very outset. The guitar riffs and ultra-fine details it fires into the room from Nils Lofgren’s „Keith don’t go“ leaves much more expensive high-end speakers green with envy. In doing so, it reproduces a surprisingly rich, deep and adequate low bass range with an extremely focused, but never annoying reproduction of the vocals.“

„[...] A true high-end speaker with a low price tag and dimensions that will suit any room – bravo.“

### Conclusion:

„Compact with an extremely fine resolution, pulse accuracy, three-dimensional vocals and a superb degree of precision.“
