KRAFT & DRIVE

"THOROUGHbred SPEAKERS"

"Huge and racy: Magnat once again demonstrates it knows how to create real thoroughbred speakers: from the four-way configuration right up to the phenomenal Hertz values."

"[...] Because the Signature 909 is a magnificent speaker for a more than reasonable price. It costs €3400 for a pair – and for this price you will be getting some real crackers for your living room with a four-way configuration."

"Large, beautiful speakers."

Conclusion:

"Magnat – like a bulldog off the leash. If there's a fight on the cards, it throws itself into the ring and gives its all. The same can be said of the top model Signature 909. Its bite, its brute force. It's like a top-of-the-range SUV taking on a lightweight sports car. Purists may well be scared off. However, there's a wonderful *joie de vivre* here in terms of audiophile enjoyment."

Price/Performance: VERY GOOD

MASSIVE, LARGE FORMAT, MAGNIFICENT –

A HIGH-END SENSATION
