MAGNAT SIGNATURE 1109

“... Right from the beginning you will notice the powerful basic sound of the speakers, resulting from both the cabinet size and the two 20cm woofers.”

“... Once the four drivers have melted together, there seems to be nothing left that they wouldn't be able to deliver in terms of sound. Vigorous basses, clean mids and brilliant colours up to the highest trebles were played effortlessly in the listening room.”

“... Despite the super tweeter, shooting for the mentioned 55 kHz, the Magnat Signature 1109 sounds neither sharp nor straining. The vocals never sound sharp and will thus allow big listening fun for hours and hours without your ears getting tired. On the other side the slightest subtleties and details from various recordings are mercilessly laid open, what can usually only be reached with headphones.”

Summing up:

“The Signature 1109 are for sure at the upper end of the new series by Magnat. The speakers do everything right and thrill us with their technical expertise, their neat finish and their sound quality. Regardless of their position in the room, the 1109 will always deliver the highest performance anywhere. Magnat equally made sure that the design is a true feast for the eyes.”

Design/Workmanship: 10 points

Set-up: 9.5 points

Functionality/Accessories: 10 points

Sound: 10 points

Price-Performance: 9.5 points
