

SIGNATURE 503 – THE HIRES ENTRY-LEVEL SPEAKER

“ [...] What is immediately audible is the high overall balance. You sit and listen and there’s nothing missing. Bravo.”

„ [...] The level of accuracy with which the little Magnat speakers reproduce these low-frequency waves and hard electronic beats is commendable and this cannot be valued highly enough in a price range in which too much bass is almost always the case.”

- + A PRECISE, NATURAL, FINE AND SILKY SOUND
- + OPTIMIZED FOR INSTALLATION NEAR A WALL
- + VERY GOOD WORKMANSHIP OF THE BAFFLE
- + EXCELLENT PRICE/PERFORMANCE RATIO

Conclusion:

“The thing with the HiRes tweeter array is primarily a marketing tool aimed at attracting some attention. The little Magnat unit, however, really deserves this attention. It is clearly one of the most tonally balanced and interesting products in its price range. It really is amazing what you can get for not that much money today. Further advantages of the 503 include its extremely fine visual appearance, an excellent level of efficiency that does not exclude smaller amplifiers, and above all, the fact that it was developed for installation on the rear wall. This means the best sound can even be expected in confined spaces.”
