

MAGNAT SIGNATURE 703 – HIGH-END PERFORMANCE IN TOP FORM

„[...] Above all, however, these compact beauties are thoroughly compelling thanks to their flexibility and superb sound.“

„[...] The Signature 703, which is produced by Pulheim-based manufacturer Magnat, is a product that could have what it takes to establish itself in numerous living room set-ups.“

„[...] You just feel very close to the sound and when you close your eyes you have the impression of almost being on the stage. A crystal clear sound experience with a lively character!“

Conclusion:

"My conclusion for the Signature 703 is positive without exception. I got to know an attractively designed product that is typical of Magnat and fell in love with its acoustics. The sound, which is impressive in terms of its dynamics, intensity, bass performance, clarity and price, impressed me throughout. Regardless of whether the speakers are used for reading audiobooks, playing subtle

songwriter sounds or generating a grand sound spectacle, the 703 speakers always managed to create an extremely natural and active atmosphere. When positioned correctly, you always feel at the very heart of the music. This is probably one of the biggest compliments anyone can give a speaker. If you then take into account that the speakers are also extremely well priced at €799 per pair, then the Magnat Signature 703 is a **hot tip for hi-fi fans** who want to take the next step to a better sound without having to delve too deeply into their pockets.“

Test result: Recommendation

Class: Mid-range

Price-/Performance: Outstanding
