

**Magnat Transpuls 1000
sehr gut**

VERY GOOD

MAGNAT TRANSPULS 1000 – RETRO SPEAKER WITH HIGH LEVEL STABILITY

„[...] In addition to its classic design, the Transpuls 1000 also offers an unusual concept. This speaker is both a powerful hi-fi unit and a party box with high level stability at the same time.”

„[...] **Magnat deserves great praise** for arranging the two bass reflex ports in the baffle. Together with its comparatively small housing depth of just 28 centimeters, this results in a speaker that can be positioned close to the wall without any acoustic impairment. This saves space in the living room, while simultaneously ensuring a perfect reproduction of the bass range.”

„[...] The Transpuls 1000 performed in an **extremely dynamic and agile manner** from the very first second of our listening test. It ensures the bass range sounds clean and dry with a pleasing and wonderful level of pressure that packs a nice punch.”

„[...] The singer's vocals are established right in front of us during our listening test and they appear resplendent with a first-class expressive nature. In contrast to typical PA speakers, the Transpuls delivers an extremely high resolution in the treble range.

Thanks to the deep-drawn sound guide around the tweeter dome, Magnat's speaker sounds **amazingly resolute and brilliant**, even when it's subjected to the highest sound ranges. This is particularly noticeable when it comes to rock, pop, rap and even classical music.”

Sound:	Very good
Configuration:	Very good
Price/performance:	Very good
Overall:	Very good

Conclusion:

“The Transpuls 1000 from Magnat is an extraordinary retro speaker that is extremely impressive with its visual and acoustic qualities. Thanks to its dynamic sound and high level stability, the Transpuls 1000 is the perfect speaker for all music fans who want a loud and immediate listening experience with an incomparable live character.”
