VERY GOOD

MAGNAT TRANSPULS 1500 – RETRO SPEAKER WITH HIGH LEVEL STABILITY

“The Transpuls 1500 sounds like it looks: large, broad and strong. The huge woofer really gets down to business and sounds extremely powerful, even when operated at very high volume. This is where the extraordinary large surface area of the cone comes into play, as it propels powerful levels into the room with very little travel. This speaker excels with a first-class dynamic performance that results in an absolutely superb bass response.”

“Everything generated by the Transpuls is transferred to the room via the baffle. The same can be said for the two bass reflex tubes, which are commendably right where they belong, i.e. facing forwards. Magnat has not given into the usual compulsion of rear-facing ventilation openings. Bravo; this is highly worthy of praise!”

“The foundation of the bass range is simply breathtaking for a speaker in the 500 Euro-class.”

Sound:	Very good
Configuration:	Very good
Price/performance:	Very good
Overall:	Very good

Conclusion:

“The Transpuls 1500 from Magnat is an affordable speaker that is utterly compelling with its independent retro design and opulent technology. The resulting sound quality is not only impeccable and extremely pleasing with extraordinary dynamics, it also offers an exceptionally high degree of level stability. Kudos to Magnat for creating a party speaker with hi-fi qualities for less than 500 Euro.”
